

PureNest

Biomass-based moulded neck pillow

Description

PureCurve is a moulded pillow with extra neck support. The shape and foam type are developed to secure consistent comfort.

It offers a variety of different combination options, for you to customise your own ergonomick neck pillow.

Choose between:

- Cooling or non-cooling cover
- With or without pinholes
- With or without height extension

Dimensions: 50 x 38 cm
Weight: 850 g

Sustainability

PureNest is made with viscoelastic foam and the raw materials are based on the biomass balance approach.

This innovative approach conserves fossil resources and can lower carbon emissions by more than 50% compared to fossil feedstock.
