

Setex[®] Post-Consumer

Bonded foam based on discarded polyurethane products

Setex[®] Post-Consumer is Bramming Plast-Industri A/S' own-produced, elastic bonded foam. The product is manufactured from e.g. discarded mattresses, which we granulate, desinfect, and glue together under pressure.

The product can be delivered in fire-retardant qualities on demand. The product exists in standard densities 50, 75, 100 og 135 kg/m³, and other densities on demand. The product can be delivered with e.g. PU foil, alu foil, textile, or self-adhesive tape.

Properties

- Noise reduction, sound isolation, and sound absorption
- Shock and vibration damping
- Comfort

Applications

- HVAC applications
- Protection for transportation of heavy objects
- Components for mattresses
- Furniture applications
- Healthcare applications

Customised solutions

- You can get a customised solution, and the product can be delivered on a roll, as a block, or in standard sheets in the dimensions:
- 2000x1200 mm
 - thicknesses from 2-350 mm
 - on demand

Setex[®] Post-Consumer is ideal within four applications

Vibration

Insulation

Comfort
